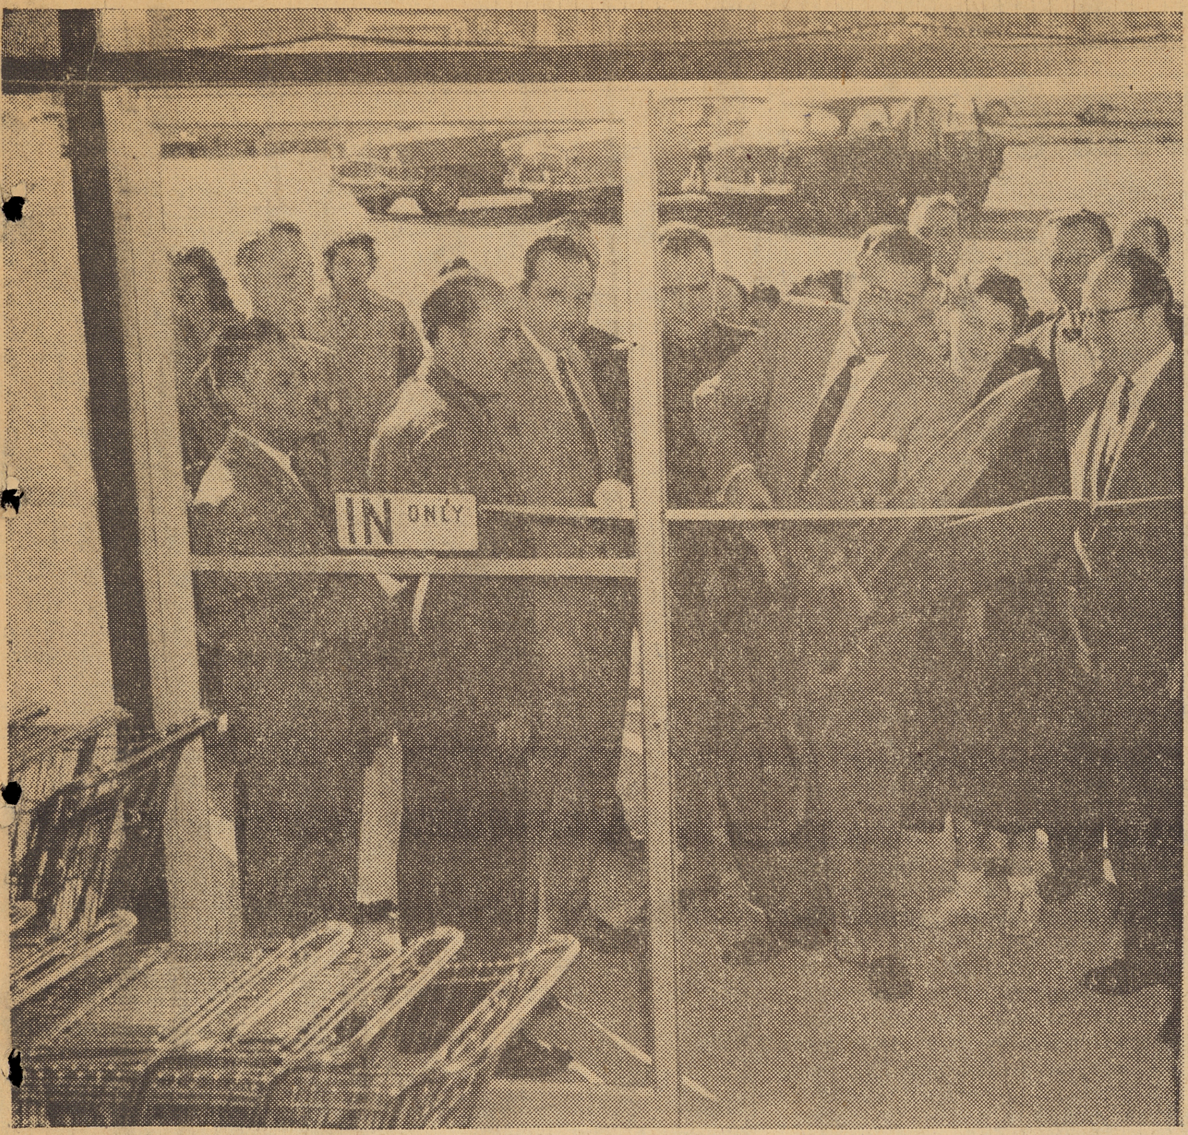
A GROWING NEWSPAPER — A GROWING COMMUNITY

Vol. 63, No. 15 CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA Thursday, December 1, 1955



Mayor Richard Morton is shown here using the world-famous 6-foot long scissors on Tuesday November 22 to cut the ribbon officially opening the new Lee Bros. Market at 235 North Winchester Road, first unit of the Winchester Shopping Center and the 14th store opened by Lee Bros. At left is Eddie Wright, manager of the new store and Percy "Doc" Cannes, real estate manager, with Councilman Charles Rose, Councilman John Chargin, Councilman James Arends, Johnny Stark, promotion manager and Leon Sayous, general manager, looking on.

CAMPBELL, S. J. CONSIDER MUTUAL STORM SEWER LINE

The city council approved the final map of Unit 2 in Los Ranchitos subdivision at West Campbell avenue and San Tomas Aquino Road Monday but would take no action on approving a storm sewer agreement proposed by City of San Jose that would extend from Tilson subdivision on Saratoga Road through Los Ranchitos and Latimer Park to San Tomas Aquina Creek becase seemingly it did not conform with the plan orginially agreed verbally by the two councils. Mayor Richard Morton said there seems about four different versions from San Jose as to what had been agreed on, and that the Campbell understanding was firm. San Jose officials are in Florida but some clearer understanding is expected to be reached by Monday when the Campbell councilmen can act on the proposal or return to the original plan that is exclusive of San Jose participation.

A public hearing on the proposed seven acre annexation west of of Century Woods subdivision and between Rincon and Budd avenes was set for Tuesday, December 3. City Attorney Joseph Bonacina is to clarify a ruling from the Attorney General's office regarding school crosswalks follow a request Monday from W. C. Henley, District School Superintendent for such crosswalks at California street and Cherry Lane avenue.

At the November 21 meeting, the council referred to the city engineer and city attorney a request from Division of Highways to excavate and relocate gravel and bed of Los Gatos Creek north of Campbell avenue. They filed a report from the Board of Equalization that if the Uniform Sales Tax was enacted the anticipated 1% state collected tax for Campbell would be $46,150 for the fiscal year.

John DeVita of 140 N. 3rd street and Frank Simons of 98 So. Milton were authorized to remove trees from in front of these properties to be replaced with approved varieties.

City council on motion of Councilman John Chargin, will protest proposed annexation by San Jose of the White Oaks subdivision because it is within the Campbell sphere of influence and is traditionally located within the community normally served by the city of Campbell. Council contended the San Jose annex proposal is contrary to understanding reached by councils of the two cities at a meeting last January. Dorothy Trevethan, city clerk, was directed to arrange a meeting after December 1 between these two councils.

A proposal from the city planners on S-zone requirements to include faithful performance bond, storm and sanitary sewers, curb, gutter and sidewalks, paving and electroliers, was referred to the city attorney to draft into an amendment to the zoning ordinance.

Council set December 19 for hearing on parking requirements in commercial zones.

William Morgan, Campbell fireman wrote the Police department invaded his private living quarters by putting a man in custody there who burned a hole in a chair, and council filed report until a reply can be had from the police department. In the meantime, councilmen began this week inspecting properties available for rental where one or more of the departments can be housed.

Campbell, Camden Students Attend Traffic Meeting

Four Campbell High and five Camden High School students attended the 'Teen-age Safety Conference on Monday at the St. Claire Hotel to better understand the problems of traffic and industrial safety, and to develop a program.

Attending from Campbell High School were Ethel Dorman, Russ Cahill, Glen Cureton and Daphne Gomes, with George Kemp as faculty advisor. From Camden were Lowell Grant, Precilla Hutcheson, Jim Nordin, Fred McCune and Dennis Anderson with Don Campbell as faculty advisor.

Student recommendations indicate a determined effort to minimize traffic accidents and to bring offenders before student judgment. Richard Roll of Bellarmine proposed a student safety check of cars driven to school, that there be active competition among senior high schools to check driving habits and that trophies be awarded schools whose drivers have the fewest citations in ratio to enrollment; that student courts be set up in schools and that pictures be displayed of different accidents.

Bill Moore of Los Gatos High School proposed that a safety unit be setup by Student Council with chairman named to serve with a voluntary committee; that a student court be set up to interpret laws written by the student body; one semester compulsory course on traffic safety, name of which would be Teenage Safety Council.

Tony Sedillo of Abraham Lincoln High advocates closer cooperation between students and faculty, registering cars within the school as a safety check, having interesting programs for students at noon so they won't drive cars, set up a traffic court in school and a system for citing with no favoritisms and have school decals on cars registered.

Joyce Strachan of James Lick High favored a vehicle check program, and that each school have two members on the Youth Committee on safety with generous publicity on its functions.

As a result of the conference Monday, Campbell High School was designated as having the most complete driver education program of any school in Santa Clara County, with full semester courses giving six hours actual driving experience behind the wheel, a factor which has established a minimum of 'teen age traffic accidents, within the school enrollment.

Planners To Review Zone Change Try

Planners will continue the hearing tonight on application of Dr. Glen W. Stoops for rezoning his residence property at 334 N. Winchester Road to C-1-S so that it can be used exclusively as a doctor's office. An opinion from Joseph Bonacina, city attorney, may determine if this use may be by variance rather than by rezoning.

The tentative subdivision map of Sunny Brook Gardens, unit No. 2 will be up for approval tonight.

It is expected some discussion will be held on requirements for curb, gutter, sidewalk and paving for churches in R-1 zones.

EDITORIAL

SAFE DRIVING EVERY DAY

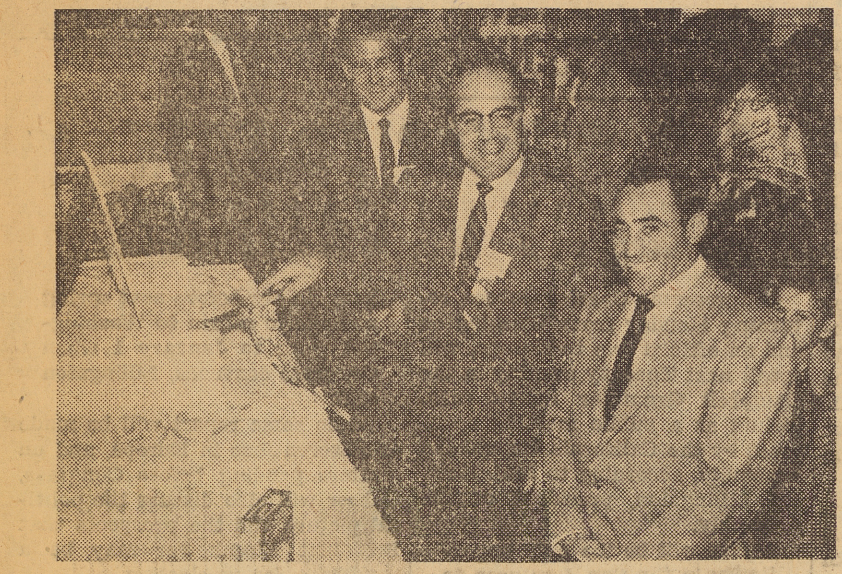
An idea is again to be tried out today by officials to cut down the national traffic toll which claims more than 30,000 lives a year, by having S-D Day and continuing it for plus ten days. Mayor Richard Morton has joined the President's committee for traffic safety by so proclaiming this day. Police Chief Robert Locke is asking for full cooperation in observing traffic rules and courtesies.

Last year on S-D Day there were no traffic accidents in Campbell and over the nation the number was substantially reduced.

All this means is a renewal of the virtues of universal courtesy and thoughtfulness on the part of each individual driver and pedestrian. It is almost inconceivable that the day will pass without accidents, but it certainly can be hoped that it may produce an important reduction to the average daily toll.

National apathy, of course, has long been the chief obstacle in promoting traffic safety. As motor vehicles crowd our streets in constantly increased numbers, accidents rise in proportion and by their very frequency, are related intô the realm of the commonplace.

Too often motorists believe that the right to drive a car is a right and not a privilege. Actually the right to drive is a trust; a trust granted by the State in the hope that the motorist will so drive that he will not injure himself or others.



Here is the first slice of the world's largest cake being made last Tuesday at the grand opening of Lee Bros. Market at 235 North Winchester Road by Leon Sayous, general manager while Bill Lee, vice-president at left and Joe Gatti, merchandising manager at right look on with smiling approval.

The Campbell Gambol

FOR THE FIRST TIME last Sunday I took a good look at the natural bridges which wind and waves have carved out of the sandstone cliff a few miles north of Santa Cruz and learned that the State plans further development of the park that was opened a year ago there . . . white, clean sand glistened under the warm sun as some 700 visitors were coming in for picnics, to see some of the marine life and to sun bathe on this late November day . . . I counted 25 picnic sites set up there with tables, barbecue stoves and benches and everything seemed clean and fresh because of its newness . . . the site, partially developed, will have future improvements which will embrace the begonia gardens and about twenty acres of land . . . there are 3000 plants ready to give color and landscaping to the site next Spring and Summer and there will be many more . . . included in the plantings are Coast silk tassel, lupin, Catalina Cherry, Wax myrtle, Carmel creeper, shiny leaf Mahonia, wild strawberry and toyon . . . the park is not far from the Wrigley plant and if subterranean drainage can be completed it will likely extend to both sides of the entrance road and become a beautiful setting . . . since January 1 there have been 179,695 visitors at the park, largest of this number having come on Labor Day weekend when 8514 checked in . . . unique as a state park aside from the picturesque natural bridge, there are basins in the sandstone outcroppings that are washed by waves to form tide pools where may be found barnacles, limpets, sea anemones, mussels and other forms of marine life . . . J. H. Michael is the park supervisor and James Beck is assistant park supervisor . . . off to the hills are some new paved roads leading to Bonnie Doon and to heavily wooded areas of madrone, redwoods, oaks, ferns and wild grape in leaf of gold and amber red, as if Nature was using lipstick as the last final touch of the season to keep the sap close to the vine's golden locks before cold, wintery gusts of wind separates them . . . on to Santa Cruz to learn a $100,000 job has started to replace the 30-year old concession building on the boardwalk next to the merry-go-round, adding ten new major rides including the "flying scooter" . . . and so much for Santa Cruz, a seasonal nest for vacationers, just an hour's drive from Campbell.

SIGHTEMS . . . the gay Christmas decorations which line both sides of Campbell avenue from Dillon to Winchester and from Rincon to the High School administration office on Winchester Road, all put up Monday by LeRoy Black, superintendent of streets and his assistant Louis Wilson, red bells and silver scrolls purchased by the Chamber of Commerce . . same pair were busy yesterday putting Sal Imby and other signs on Campbell avenue sidewalk intersections from Harrison avenue to Winchester Road, the Sal Imby denoting "Save-A-Life—It May be Yours" for the Junior Chamber of Commerce safety program and D-Day which is today, and will continue through ten more days . . . the "Cats" marking on the high school lawn appearing before the Campbell-Los Gatos game last Thursday.

Traffic Safety Rotary Subject

"Look Alive to Stay Alive" was the slogan for the Rotary Club meeting last Monday, when Gordon Ewig, member of executive board of Santa Clara County Safety Council, was guest speaker.

Ewig gave an informative talk on the Green Cross, symbol of the National Safety Council, which was organized in 1912, for the purpose of fighting traffic accidents. He stated that there is an average of 40,000 traffic deaths in the United States annually, which is more than the total number of deaths during all combined wars in recent years. Traffic injuries have reached the staggering figure of 2,500,000.

Ewig stressed courtesy as the chief factor in preventing accidents.

Robert Locke, chief of police of Campbell, was a guest at the meeting.

Bob Jasmine was chairman of the day.

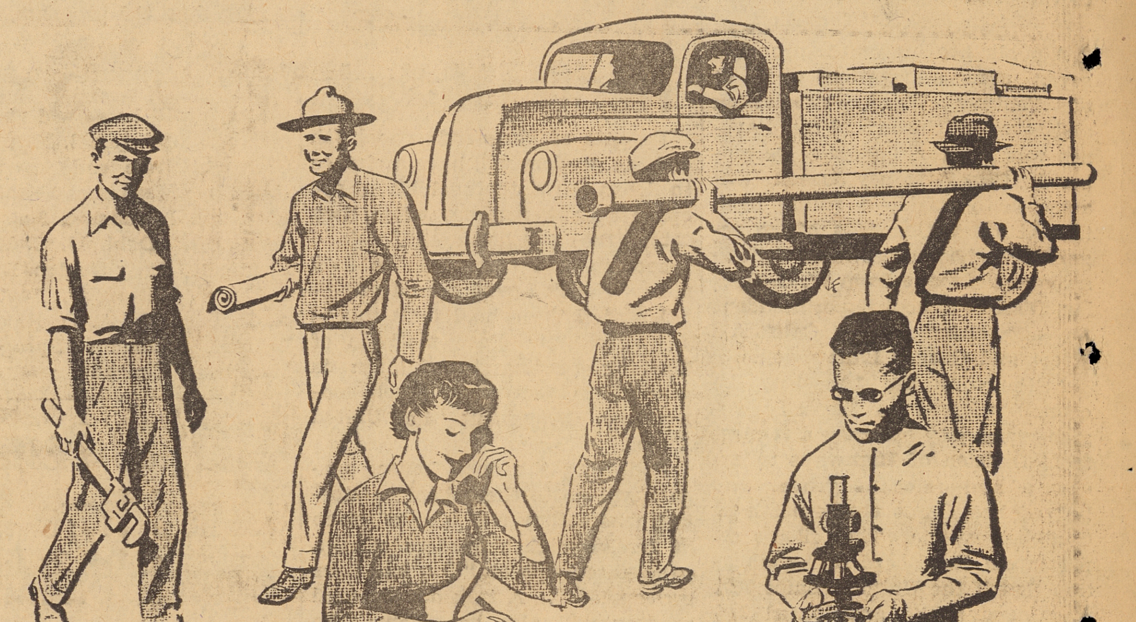
WHAT IT TAKES
To Supply Your Home With Water Every Day



Arrangements for providing water service to thousands of new residents of this area are made, fittingly enough, by a fifth generation San Josean.

He's our assistant general manager, Norman Andrews, whose great-great-grandfather came to town in 1851, just a year after the city was incorporated. That was 15 years before San Jose had a water system.

Now one of Norm Andrews' chief duties is "new business" which means responsibility for every new home in the San Jose area having water in the faucet when its owners are ready to move in. So far in 1955 there have been 4143 new connections to our system.

And if you think population growth is slowing down here, you're wrong. This is the biggest single year of growth since water was piped along First and Santa Clara Streets in 1866.

When a subdivider first lays out a new tract, Norm Andrews begins immediately to coordinate water service activities so that water will be available when the homes are completed. He also handles acquisition of new property and rights of way for the company.

He began his career with San Jose Water Works 21 years ago as an office boy. Except for two years in the army during the war, Norm has been with us ever since. He's worked on many different water works assignments and in 1948 was appointed assistant general manager.

Great-great-grandfather Andrews would never have believed that one day more than 800 miles of pipe would deliver water to 64,560 customers in the San Jose area, but that day is here and his great-great-grandson has helped accomplish the feat.

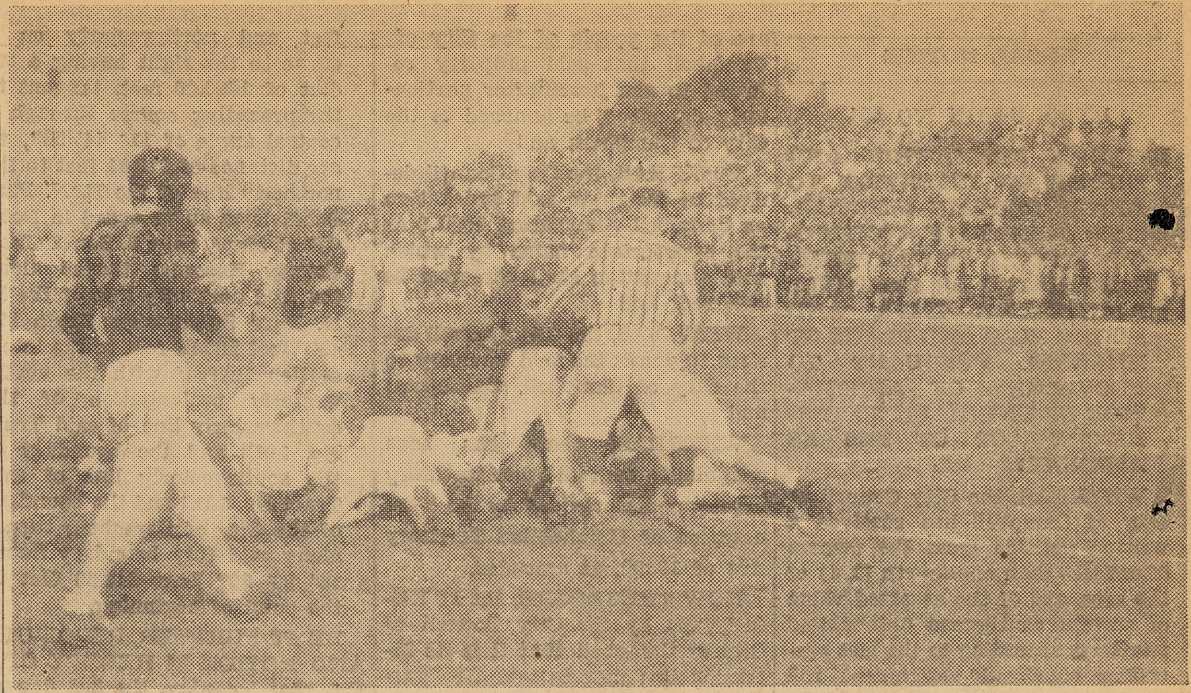
Lee Bros. Uses Foto-Chek Plan

Lee Bros. Smiling Service on Winchester Road at Latimer Avenue in Campbell, has announced inauguration of a system of issuing a new type of identification cards to customers, which will eliminate delay in identifying and approving the cashing of checks for customers.

Under the new system, customers will fill out an application giving their name, address and other pertinent information and will have a picture taken. The information and picture will be placed on a plastic enclosed card. The finished card may be used as identification not only in all Lee Bros. stores, but is accepted as well by many other business firms in this area as they are positive identification of the holder.

The Foto-Chek Corp. has installed the system in the Lee Bros. stores and is charging a small fee for the service.



TOUCHDOWN NO. 1 for the Campbell Bucs was scored in the Thanksgiving Day game against the Los Gatos Wilcats, by Russ Cahill whose head, if you look closely in this picture is on the ground between the feet of the referee with four Wildcats on top of him, with Tony LoBue, Roger Lukehart and Jerry Sutton in on the play. Cahill went over for the second Campbell touchdown in the fourth quarter with Jim Corbus converting for the extra points to give Campbell a 14-7 victory. In the background is the Campbell rooting section.

TODAY IS S-D DAY

Dwight Eisenhower
President of United States

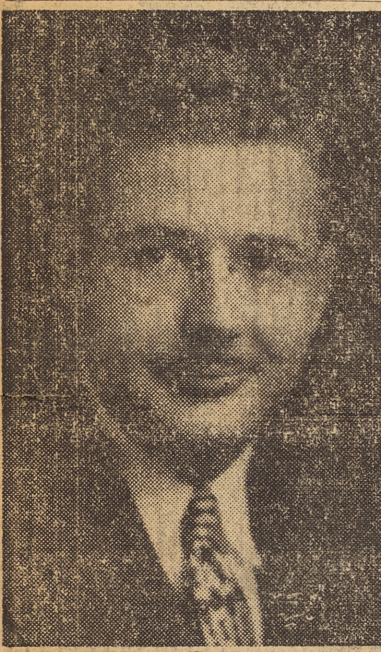
In proclaiming the nationwide observance of Safe Driving Day on December 1, emphasizes two aspects of the drive against traffic accidents in this country.

First—to walk and to drive safely reveals not only the national concern over traffic problems but also the belief that the solution lies in a strong appeal to mass sentiment and action.

Second—vaices the conviction that traffic accident CAN be prevented by organized mass attack.

Last year, the National Safety Council estimates 36,000 people were killed and 1,250,000 injured in traffic accident. The total cost of these accidents, including property damage, medical expense, wage loss and insurance costs amounted to $4, 400,000,000.

Some causes of traffic accidents are drunk driving, speed, traffic violations—in general, those driving mannerisms grouped under the general heading of "reckless or careless driving."



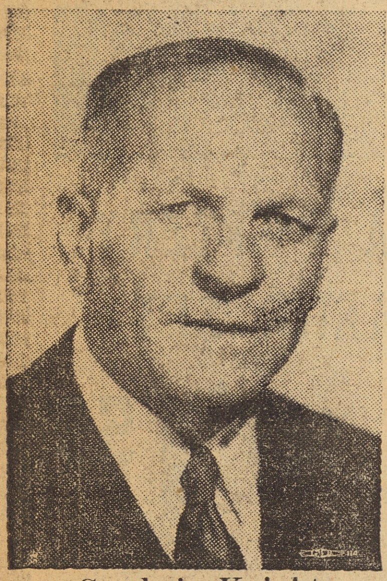
Richard Morton
Mayor of Campbell

WHEREAS, November and December are regularly the high traffic accident months of the year, and

WHEREAS, the President of the United States, Dwight D. Eisenhower, and the Governor of the State of California, Goodwin J. Knight have proclaimed Thursday, December 1, 1955, as S-D Day (SAFE DRIVING DAY) for the purpose of having every community in the United States free of traffic accidents for a 24-hour period, thereby saving the lives of an estimated minimm of 105 persons and saving 3,700 others from injury, and

WHEREAS, S-D Day provides an opportunity and a challenge for all individuals and organizations to join in a very special effort against a common enemy—the traffic accident toll of injury and death,

THEREFORE, I, RICHARD MORTON, MAYOR OF THE CITY OF Campbell, do hereby proclaim December 1, 1955, AS SAFE DRIVING DAY in the City of Campbell and urge every organization to lend its support by some special safety activity and every individual to accept full responsibility for whole-heated observance of basic driving and walking rules, with the knowledge that lives can be saved, could include your own or that of a loved one.



Goodwin Knight
Governor of California

In proclaiming S-D Day cites the following basic points for the success of this massive campaign:

1. Know and always obey all traffic laws and regulations.

2. Read and heed the "Signs of Life"—traffic signs, signals and pavement markings placed for your protection. They spell the way to safety.

3. Slow down—take your time when road, weather or even your own physical condition is not perfect.

4. Stay alert—always expect the unexpected from all walkers and motorists. Protect others from their own mistakes by being your brother's keeper in traffic.

Robert Locke
Campbell Police Chief

A safe driver drives defensively as though he is always under attack. His enemies are careless motorists, careless pedestrians and unsafe traffic conditions. Check yourself to see if you are driving defensively and you can answer "yes" to these questions?

Do you drive so that you are never surprised by the actions of other motorists or pedestrians?

At intersections do you make sure no one is approaching from your right or left even though you may have the right-of-way?

Do you constantly check your rear-view mirror to see what's happening behind you?

Do you watch out for pedestrians even though they may be crossing against the light?

Do you keep a sharp eye out for oncoming cars that might suddenly make left turns in front of you?

On slippery pavement do you check your brake to see how much traction you have in case you must make an emergency stop

Another Campbell High School Varsity Basketball team that will be short on height and experience but long on speed and class is being developed by Coach Bert Robinson, whose Buc teams have won 112 games while losing only 28 in his seven years at Campbell High. Vernon Lunt is the only regular back from last year's team.

Phil Arman, Robinson's all conference forward of last season, returned to Arkansas. Jon Harris, who was graduated, has already made Jerry Vroom's frosh five at San Jose State College, and other former Buc hardcourt stars, Tony Schraub and Eric Protiva are now aspirants at Stanford.

Looking good in practice sessions so far are Charles Cardona and Ray Christiansen, substitutes on last season's Buc Varsity five. Up from "B" and "JV" teams are hopefuls Dwight Klassen, John Bogonyi, Jim Williams, Jerry McSpadden, and Roger Almquist.

The Campbell Varsity five has a strong opening exhibition clash here against Lincoln High of San Jose Saturday night. George Brinck's Lions had an outstanding 1954-55 team and were again SPAL champions. Lincoln always has good basketball fives, and this will be Robinson's first real opportunity to get an early season line on his players under game conditions.

At the close of the "C" and "D" basketball season at Campbell High School, Robinson had some bouquets to throw his 110 and 120 stars. Dennis Yasuda, captain of the D's was an outstanding hustler, and George Nakamoto, Fred Tashiro, and Ben Lujan were all good prospects and scorers. Steve Hirose was coming along fast at the end of the season. The Buc D's ended up with an enviable 7-2 league record.

Ted Kanemoto, captain of the "C's" was an outstanding court leader and a great hustler and scorer. Harvey Takaha became a good feeder and was excellent at defensive skills. Dave Labarbera and Vic Itow were both great defensive men. Elden Jones, at center, was a great rebounder and showed a great deal of promise for a freshman. Don Yee and John Montilla were also freshman replacements who showed a lot of promise.

Your share of the National Forests is slightly more than one acre, about the size of a football field.

Buc Cagers Win Championship

By Steve Dunn

The Campbell High Cee Basketball team closed one of the most successful seasons on record by downing the James Lick Comets, 51-34, and the Camden Cougars, 46-30 in the two final games of the season.

The final overall Cee record, including practice games, was 12 wins and 3 losses, as the boys won the last ten games in a row. Their league record was an unmarred 9 wins and 0 losses which gives the Buc squad the SCVAL crown.

Ted Kanamoto led the 120's in the game against James Lick, as he scored a sensational total of 20 points. Harvey Takaha also gave a good performance, dropping in 13 points. In the James Lick tilt, the Bucs pourned on the heat in the first quarter, rolling up 23 points to break the back of the Comets.

Against Camden the Buc Cees also took a quick first quarter lead, as they pulled ahead by the score of 16-2. Eldon Jones was the Campbell standout in this game with 13 points.

Turning to the Dee picture, the Buc 110's also ended the season on a successful note, defeating James Lick, 37-22, and Camden, 31-20. Fred Tashiro and Ben Lujan both scored 12 points against the Comets, while Tashiro led the Bucs with eight points against the Cougars.

After dropping their first five games, the Dees made a tremendous comeback to end the season with a 9-6 record.

In the B League, the South beat the North 31-19 with Dover, San Tomas, Cherry Lane and Quito representing the winners.

The Hamilton 49ers led in scoring with 21 points in the A division while Dover scored 19 points to top the B league.

Joe Stein, director said about 300 boys participated in the sports jamboree in which there was a demonstration of good sportsmanship.

CHRISTMAS EXCHANGE TO SERVICE CAMPBELL AREA

Campbell and neighboring communities will be served by the Christmas Exchange which the Community Welfare Council of Santa Clara County opened this week at its offices, 323 Security building, San Jose, it was announced by C. Josh Anderson, executive director of the Council.

Purpose of the Christmas Exchange is to put needy families and underprivileged children in touch with groups or individuals who will give them Christmas baskets, merchandise orders, toys, clothing, bedding or other necessities.

Another purpose is to prevent duplication of gifts.

"Without such a clearing house as the Christmas Exchange, one family is likely to get several baskets of food and other gifts, while another family, in equal need, may get nothing at all," Anderson explained.

This is the second year the Christmas Exchange has been operated by Community Welfare Council. Last year, 1203 families, made up of 6911 adults and children, were registered with the Exchange and put in touch with groups or individuals who provided Christmas baskets or other needed gifts. At the same time, 148 duplications were prevented.

The Christmas Exchange is now receiving applications. Persons who know of families or children in need of Yuletide assistance should write to the Exchange, giving names of parents, together with other necessary data. This data should include address, number of children, together with their names, sexes and ages (also sizes, if clothing is needed), the telephone number, if the family has a phone, and information as to the kind of gift desired. Letters should be addressed to Christmas Exchange, 323 Security Building, San Jose.

Safe Driving Points Given By Chief Locke

Traffic accidents will be kept to a minimum S-D Day, today, if motorists remember courtesy on the highway and follow six tips for safe-driving.

This advice was given today by Police Chief Robert Locke, local chairman of S-D Day observance in Campbell.

To help decrease December accidents, Chief Locke urged the following safe-driving tips become the driver's byword:

1. Get the "feel" of the road. Be alert but relaxed, try to sense road and weather conditions before you start out.
2. Adjust speed to road and weather conditions. If the roads are slick and the weather is against you, take it easy.
3. Keep windows and windshield clear at all times. You have to see danger to avoid it. Carry an ice scraper to use when snow and ice get too heavy to be taken care of by the windshield wiper.
4. Use tire chains on ice and snow. They can greatly reduce stopping time.
5. When using the braks, step on it promptly, release it completely, and repeat the process intermittently for a safe "pumping" action.
6. Drive a safe distance behind other vehicles.

Campbell School Board Visits New Camden Facilities

The Campbell Union High School District board of trustees paid an official visit to the new Camden High School on their regular meeting day, Tuesday, November 20.

This was the first official visit of the Board to the new school, when they toured the grounds and facilities of the school and visited the classrooms in action. Laurance Hill, superintendent of the high school district, stated that Board members were gratified to see that the school is operating very satisfactorily and completion of facilities is progressing rapidly.

The Unita Mountains in Wyoming are the only east-west mountain range in the United States.

S-D Day Will Be Observed In Campbell

The first day of December will be observed throughout the nation as S-D Day. That's the "Safe-Driving" day when all communities in the United States, including Campbell and Cambrian Park will do their best to go 24 hours without a traffic death.

When asked what each driver could do to help keep S-D Day accident free, Police Chief Robert Locke explained, "A safe driver drives defensively. The defensive driver acts as though he is always under attack."

"His enemies are careless motorists, careless pedestrians and unsafe traffic conditions. The defensive driver makes allowance for these highway culprits. He avoids accidents by anticipating and allowing for the hazards created by the unsafe acts of others and by adverse traffic and weather conditions."

Chief Locke asked every driver in Campbell to check himself to see whether he is driving defensively. The defensive driver can answer "yess" to all the following questions:

Do you drive so that you are never surprised by the actions of other motorists or pedestrians?

At intersections do you make sure no one is approaching from your right or left even though you may have the right-of-way?

Do you constantly check your rear-view mirror to see what is happening behind you?

Do you watch out for pedestrians even though they may be crossing against the light?

Do you keep a sharp eye out for oncoming cars that might suddenly make left turns in front of you?

On slippery pavement do you check your braking to see how much traction you have in case you must make an emergency stop?

In short, you are a defensive driver when you drive for the other fellow as well as for yourself. On S-D Day and every other day of the year be your brother's keeper by driving safely and doing your part to stop accident, Locke said.

WE NEED RAIN—

JOURNALISM STUDENTS WELL TRAINED AT CAMPBELL HIGH

This is National "School Newspaper Week", to review work of publications that are the testing ground for journailsts of tomorrow.

At Campbell High School, the newspaper is known as The Campus Echo. Its writers are students in classes known as English IIIJ and English IVJ, fifty-two students who scour the campus for news, interview faculty members, attend club meetings, and learn how to write sports news by seeing SCVAL contests featuring their own "Bucs."

Journalism advisor is Miss Betty Giltinan, a new teacher at the high school this year, who succeeded Jim Canterbury, now journalism advisor for San Jose Junior College. Miss Giltinan worked on newspapers in Arizona while a student at Arizona State College in Tempe, where she earned her BA in journalism and her MA in Education. She has visited all forty-eight states and is looking forward to her first visit to Europe next Summer.

Student editor, Carol Young, starts the news week every Monday by assigning stories to all reporters and making arrangements for a front page picture. Two associate editors, Marjorie Smith and Fran Smith, meanwhile, work on the paste-up, clipping stories from galley sheets in suitable makeup.

Wednesday is class day, when students study different techniques of writing and learning newspaper terminology. Thursday is delivery day and all journalism students serve as messengers bringing papers into classrooms. The editors, meanwhile, are now busy correcting stories turned in for next week's paper and putting finishing touches on the copy. Stories are turned into The Campbell Press to be set in type; the actual newspaper, though, is produced by the school's offset equipment under the direction of business teacher, Ken Cline.

Ethel Dorman, society editor, covers school dances and social affairs while Bill Williams, sports editor has complete charge of the sports page, assigning coverage of all school athletic contests to his reporters, seeing that the games are covered accurately, and that facts are complete.

Mary Pretto, feature editor, has charge of the personality columns and feature stories. The school paper uses "Daffynishions", a "Meet a Buc" column, a weekly editorial complimenting or admonishing recent student conduct, a "Disc Derby" which reviews popular records, and a "Buc's Log" full of school chitchat.

Reporters covering the many happenings about the high school are Ronnie Reeder, Carol Steinmetz, Janice Polglase, Betsy Simmons, Orisa Johnson, Pat Gutierrez, Barbara Harrison, Glenn Dalzell, Carole Hansen, Carolyn Jernigan, Elizabeth Nevis and Pat Howard.

Cartoonist Ed Watson provides one or two cartoons a week. A recent one featured the Los Gatos wildcat being trampled by a Buccaneer. Exchanging papers with other schools is supervised by Mary Friedman, who keeps files of all other Northern California journalistic activity; as in all newspapers, this material is frequently tapped for "filler".

Campbell High School Jornalism staff attended the Central California Scholastic Press Association Convention at Stanford University in October, and the Peninsula Scholatic Press Association meeting in November at San Jose State College, under the leadership of Dr. Dwight Bentel, head of the SJSC Journalism Department. At the latter meeting, Marjorie Smith, a senior at Campbell High School was elected PSPA secretary for the year. Discussed was the importance of working on a newspaper and taking a journalism major in college. The CUHS newspaper staff is rejoining the National Honor Society for Journalists, the Quill and Scroll.

BOX SOCIAL TO BE HELD AT CAMDEN HIGH SCHOOL

A box social is scheduled for the evening of December 2 at Camden High School for students of the Campbell Union High School district, funds from which will go toward the Camden High branch of the California Scholarship federation.

All girls are to bring decorated boxes for the boys to bid on. Square and social dancing will then be featured. Couples without student body membership cards will be charged 25c more than those who do have them, according to Priscilla Hutcheson, committee member.

The first homestead in the United States under the Homestead Law was taken by Daniel Freeman, a Civil War soldier, on January 1, 1863, near Beatrice, Nebraska.

Man Fined $100 For Driving With Lapsed License

Palo Alto—Lester Ogden Green, 28, of 261 Olympia Ave., Campbell, was fined $100 and given a 30-day jail sentence when he pleaded guilty in Palo Alto-Mountain View Municipal Court to charges of driving with a suspended license.

Judge Paul I. Myers suspended $50 more of the fine and 60 days more in jail, placing Green on probation for three years. Palo Alto police cited Green Nov. 18 at Embarcadero and Newell Roads.

The judge also suspended a five-day sentence for making an unsafe lane change.

More than a thousand birds and animals are confined in quarters resembling their natural habitat in San Francisco's Zoological Gardens.

Campbell Feather Returns Now 60% Of Its Quota

With another progress report scheduled today, the Campbell Red Feather Campaign has reached $6,105 in contributions, it was announced by George B. Kemp, chairman.

This represents 61.05 per cent of the campaign goal of $10,000.

Valunteer campaign leaders are asked to report their new returns at campaign headquarters, 323 Security building, San Jose, by noon today.

Campbell is conducting its Red Feather appeal for support of Community Chest agencies in conjunction with San Jose, Santa Clara, Cupertino, Milpitas and some 20 rural centers in Central Santa Clara County.

The over-all campaign now stands at $378,856, or 92.20 per cent of its $410,900 goal, according to Robert C. Lindsey, general chairman. Two of the concurrent appeals, those in Milpitas and Cupertino, have gone over the top with more than 100 per cent of target.

Tri-County Water Campaign Started

Efforts to win for this area a solution to the critical water problem by the formation of a Tri County Water Authority are being made by Jack Z. Anderson, former Congressman and chairman of the committee.

The first step to give the area a stronger political voice will be before the voters late this month in the Santa Clara Valley Water Conservation District, the San Benito and Pacheco water districts when they vote on whether or not to join the Authority, Dec. 28.

With the approval of the Tri-County Authority, a strong body having the "political muscle" of more than a single district or a single county, will be achieved, Anderson stated. As a result of this strength, this area will have a much better bargaining position for outside water and governmental assistance in solving the water problem, he added.

Recommended by the Bureau of Reclamation, the state and the national officials having studied the water problem, together with the Board of Supervisors, the Tri-County Water Authority will be an action group to represent San Benito, Santa Clara and Alameda Counties' water districts desiring to participate in the effort to solve the water problem. The Authority will be made up of members appointed by the Board of Supervisors on the basis of recommendations from the water districts.

The Authority will study the various methods of bringing outside water to the area and after deciding on the most feasible, take active steps to raise the descending water table with imported water. They may levy a tax on property only, not improvements, of up to 10c per $100 assessed valuation for a period of 6 years to finance the action to solve the water problem. The Authority does not have the power to incur bonded indebtedness for the area. Such action would require approval of the State Senate and Assembly before a bond election could be held for a 2/3 vote of approval by the people.
